The Schiedel Isokern Garden Fireplace is the ideal solution for outdoor living.

This stunning focal point for any garden is available in 3 sizes and is delivered in a complete packaged solution.

The natural volcanic pumice (sourced from the Hekla Volcano in Iceland) gives this outdoor fireplace all the insulation needed to have a safe and spectacular centre-piece in any garden. The relatively small footprint also means that it can be placed against any wall, even in small gardens or yards, where space is at a premium.

The kit includes the chimney blocks, the lip glue for assembly, firebricks and also firebrick mortar and a render to either seal the joints or give an entire rendered finish.

The Garden 500 model comes with a log retainer and barbecue grill (additional log stores are available as extra). The 950 and 1200 models can have a log store and a barbecue grill as an additional extra.

This makes the Garden Fireplace the only choice for outdoor heating and living, from the leading experts in chimney solutions.

LOG RETAINER &
BARBECUE GRILL
FREE
WITH 500 MODEL!

500 MODEL

Our most popular model as it can function in any size garden.

The 500 model comes with a FREE Log Retainer and a Grill to allow it to become a superb barbecue, as well as a stunning Garden Fireplace.

Additional chimney blocks can be added to increase the height.
